

JOURNAL AUTHOR GUIDELINES

Please use these guidelines to ensure that your manuscript is complete prior to submission.

If you have any queries, please get in touch with your contact person at River Publishers.

All papers are single blind peer reviewed to ensure quality, technical accuracy, and maximum interest to our readers. They will also be checked for plagiarism.

All papers submitted should:

- Clearly relate to the aims and scope of the journal (this is the most common reason for rejection)
- Justify all claims with evidence and without exaggeration
- Should be written in clear, concise and readable English (this is the second most common reason for rejection)
- You **must provide an institutional email address**, that is we require you to use the official email address associated with your position – supplied by your university, research institution or other employer. If you are unable to use an institutional email address, then please provide an explanation and an alternative proof of identity (this is the third most common reason for rejection).

FORMAT OF SUBMITTED PAPER

- Please **use the style file, from our website**.
- Please include **all figures and tables within your paper**
- References should follow the **IEEE style of referencing**
- All **images** must be submitted with a **resolution of at least 500dpi**. *Scanned figures are not acceptable.*

FILES TO UPLOAD

1. **Article** - your paper which includes the title of your paper, all authors names, affiliation, country and emails (*an institutional email is required – see above for details*), and a minimum of 4 keywords in the format detailed above.
2. **Author Biography & Photo** – a separate document which includes photos and short biographies (approx. 100-200 words) of all authors. This will be added to the end of your paper once accepted, after review.

Further considerations

- Make sure your paper has been 'spell checked' and 'grammar checked'.
- Ensure all references mentioned in Reference List are cited in the text, and *vice versa*.
- Ensure permission has been obtained for use of copyrighted material from other sources (including the Internet) and state the relevant creative commons license for open access materials.
- Ensure all figure and table citations in the text match the files provided.

STRUCTURE OF YOUR ARTICLE

Title of paper

Titles are limited to *80 characters, including spaces*. Titles should clearly reflect the content of the manuscript.

Abstract

Please provide a maximum 300-word summary of the paper. This should be a concise reflection of the aims, conclusions and include interesting or important results. In particular, please specify the articles' relevance to the journal.

List of notations and abbreviations

Please provide a list of symbols, abbreviations and definitions used in the text.

Keywords

Please supply at least 4 keywords that may be used for indexing.

Appendices

Additional information, such as tables or mathematical calculations/derivations can be included and should be clearly referred to, from the main text, as belonging to the appendix.

Acknowledgements

Please provide details from those individuals and institutions that contributed to the paper. For example:

Funding: This work was supported by the Organization 1 [grant numbers xxxx, yyyy]; Organization 2, [grant number zzzz].

This research did not receive any specific grant from funding agencies in the public, commercial, or not-for-profit sectors.

Author X provided intellectual advice. Author Y performed analysis. Author Z wrote the paper.

Ethics

Any associated safety, environmental or ethical issues should be declared and stated in the submission form and manuscript. A statement concerning any conflicts of interest should be included.

Mathematical equations

Only relevant equations should be included in the main text and should be numbered – anything else can be added as an appendix or as supplementary information.

COPYRIGHT RELEASE

If your paper is accepted, after review, you will be sent a Copyright Release Form to sign. For multiple authored papers, this form is signed by one author on behalf of all.

HOW TO SUBMIT YOUR MANUSCRIPT

Manuscripts and other files should be uploaded to River Publishers' Journal submission platform. Emailed documents are not accepted. Please go to the journal website to submit your paper.

Submission of a manuscript implies: that the work described has not been published before; that it is not under consideration for publication anywhere else; that its publication has been approved by all co-authors, if any, as well as by the responsible authorities – tacitly or explicitly – at the institute where the work has been carried out. The publisher will not be held legally responsible should there be any claims for compensation.
